## Commission Financial Model Update

December 14, 2019

John Gerner
Vice Chair, Navy Hill Development Advisory Commission
Managing Director, Leisure Business Advisors LLC
johngerner@navyhillcommission.org

## Main Source for Financial Numbers is MuniCap 27-A

> Tax Increment Financing Projections Draft Projection No. 27-A (Citi Debt Service)

## DRAFT

Assumptions:
Updated Increment Financing Area Parcels

Revenues Available for Debt Service:
Includes Real Property Tax Increment Revenues - 100\% Pledge
Includes Remaining Expanded TIF District Incremental Tax Revenues
Includes Meals Tax Revenues - 100\% Pledge
Includes Lodging Tax Revenues - 100\% Pledge
Includes BPOL Fee Revenues - 100\% Pledge
Includes Dominion Tower 1 (Anticipated Building 2019) Increment Tax Revenues - 100\% Pledge
Includes Dominion Tower 2 (Anticipated Building 2020) Increment Tax Revenues - 100\% Pledge
Includes Designated Revenues from Arena
Includes District-Wide Parking Revenues
Includes Music Hall and Armory Revenues

## Parcels in MuniCap Projection No. 26

## Outside Increment Financing Area (aka TIF district)

These are inside the yellow and blue circled area and mistakenly included in MuniCap No. 26 and earlier reports. The MuniCap 27-A report, which was received by City Council and the Commission on December $6^{\text {th }}$, removed these parcels.

## Projected Real Property Tax Increment Revenues in MuniCap 27-A

## Categories are Very Important

- "Total Projected Revenues" in the MuniCap 27-A report includes incremental real estate tax revenues from existing properties in the increment financing area.
- By itself, an increment financing area (or TIF district) does not cause new tax revenues since there is no special assessment fee.
- Instead, it categorizes future tax revenues.
- In this case, one category is the Navy Hill Fund that is paying the arena bond.
- The other category is the City of Richmond's future General Fund, which pays for essential services.
- There is overlap between these two categories since tax revenues are transferred from the future General Fund to the Navy Hill Fund.

## These Amounts Are in the Overlap Area of the Future General Fund

IFA = Increment Financing Area (aka TIF district)
Note: This is conceptual and not in proportion.

## Tax Revenues from Existing Properties + Planned Dominion 2 Tower

| Year | Calendar Year Ending | Bond <br> Year <br> Ending | Existing Real Estate Property in Increment Financing Area |  |  |  |  | Planned Dominion Tower 2 | Existing Properties Plus Planned Dominion Tower 2 |  |

At-Risk Future General Fund revenues, before consideration of off-setting benefits and additional costs.

## From Cooperation Agreement in Ordinance No. 2019-211

3.3 Disposition of Pledged Revenues. For each Fiscal Year beginning with the Fiscal Year commencing July 1, 2020, the Authority shall apply all Pledged Revenues received pursuant to section 4.0 of this Cooperation Agreement as follows:
A. First, the Authority shall apply such Pledged Revenues to the requirements of the Bond Repayment Fund as specified in the Indenture.
B. If any amounts remain after the requirements of subsection (A) have been satisfied, the Authority shall apply those remaining Pledged Revenues to the Stabilization Fund until the Stabilization Fund contains an amount equal to the maximum annual debt service on the Bonds outstanding under the Indenture.
C. If any amounts remain after the requirement of subsection (B) has been satisfied, the Authority shall deposit 50 percent of those Pledged Revenues into the Early Repayment Fund and pay the remaining 50 percent of those Pledged Revenues to the City for its general fund. Although a future City Council cannot be obligated to make such an appropriation, the City intends that the first $\$ 10,000,000.00$ of the monies received by the City pursuant to this subsection (C) be appropriated for the provision or maintenance of affordable housing in the Increment Financing Area.

## Bond Includes "Turbo" Payments - 50\% of "Excess" Annual Revenues

- For traditional tax increment bonds, the debt service structure and projected debt service coverage is an extremely important factor for investors
- Although the market preference is for level debt service, ascending debt service structures can be utilized to mirror the expected increasing pledged revenue curve
- The transaction will be underwritten with a debt structure and debt service coverage ratio consistent with the credit discussion above
- MuniCap's base case projected revenues will be used to determine projected debt service coverage ratios
- The goal of the financing is to (i) deliver the required $\$ 245$ million of net bond proceeds needed for the Arena, and related infrastructure development costs, (ii) to minimize annual debt service ascension, and (iii) to provide a minimum of $1.50 x$ debt service coverage from total pledged revenues

[^0]

## Alternative Scenario:

Increment Financing Area (aka TIF district) with only Developer Parcels. No Expanded TIF. No Existing or Independently-Developed Properties. No "Turbo" Accelerated Payment Approach

## Hypothetical Total Revenues and Debt Coverage Ratio Based on Alternative Scenario with No Expanded TIF District

AFTER PRESENTATION NOTE:
This slide will be revised with the higher assumed interest rates in the Dec. $7^{\text {th }}$ Citigroup presentation.

Note: $150 \%$ or
1.5 debt
coverage ratio
is the targeted
minimum
annual level for the current
financing
approach.

## Questions?

John Gerner<br>Vice Chair, Navy Hill Development Advisory Commission<br>Managing Director, Leisure Business Advisors LLC<br>johngerner@navyhillcommission.org

[^0]:    - After depositing pledged revenues after debt service into the Stabilization Fund, 50\% of the excess will be used to "turbo" (prepay) the bonds; the remaining amounts will be shared with the City
    - Based upon current assumptions, the Bonds will be repaid by approximately 2040, eight years earlier than the stated final maturity date of 2048
